Thought: "Being imperfect doesn't disqualify us from serving God; it just emphasizes our dependence on His mercy"

## HOPE FESTIVAL2014

This year's theme is **"Authenticity."** Authenticity is simple. Authenticity: the quality of being authentic, being real, genuine, transparent, "keeping it 100%", and "what you see is what you get" are often used to describe people who are authentic, but often the idea of authenticity and our relationship with God are not synonymous. However, to truly experience the transformative power and love of God, we need to be our true selves, not only the good parts that we are proud of, but also the parts that remain secret and hidden. We understand that fear of ridicule, shame, and guilt prevent us from being honest before God, but God can only change what we are willing to admit. We feel that it is important to convey this message in our 9<sup>th</sup> year, because, a number of people present a façade before God and each other due to societal pressure, fear and Church dogma. Our hope is that over these 3 days of worship experiences people will be able to confront their fears, let go of burdens, truly examine their lives and experience what it means to be in an authentic relationship with Jesus Christ, who was the epitome of authentic living.

This year we will be having three gatherings/worship experiences.

(Wednesday 23-Friday, July 2014 – 7:15pm nightly)

**There will be a number of volunteer opportunities.**

1. Greeters
2. Ushers
3. Ministers to speak with people one on one after altar call.
4. Product table sales- T-shirts/CDS/ Books
